

Therapeutic Vibration Technology

Theravibe™

Theravibe offers the most advanced Therapeutic Whole Body Vibration Technology available on the market today!

Theravibe is the only Therapeutic Whole Body Vibration machine designed, manufactured and supported in the USA. Theravibe provides low impact, pure vertical whole body massage with easy one-touch operation. Theravibe's patented calibration technique compensates for the user's weight to ensure a consistent experience every time. Theravibe provides unsurpassed accessibility with a low-profile plate only 3½" off the floor and a weight capacity of 550lb. Theravibe is quiet and energy efficient. Software upgrades using a thumb drive make it quick and easy to get the latest features and enhancements. Options include a card reader, customizable treatment sessions and a wide variety of colors to suit any décor. Theravibe's patented zero maintenance technology provides the highest level of dependability and durability in a professional environment.

Therapeutic Whole Body Vibration

Therapeutic Whole Body Vibration (TWBV) is the purposeful exposure of the body to controlled vibration of specific frequency and strength in order to achieve health benefits. TWBV was initially developed as a means of reducing bone and muscle loss in outer space. TWBV was later discovered to improve flexibility and strength. Much of the success of the Russian Olympic teams of the 1970s and 80s have been attributed to these athletic uses of TWBV.

Since then the use of TWBV has expanded to include the treatment of specific diseases, longevity, aged care and beauty. TWBV complements other therapies and has been adopted by professional athletes to reduce stiffness, accelerate injury recovery and improve agility. A broad range of healthcare professionals now offer TWBV for a growing number of chronic conditions as a drug-free, non-invasive treatment approach.

Just 10 minutes a day helps to...

- Improve Circulation and Lymphatic Drainage
- Increase Bone Density
- Lose Inches
- Tone Muscles, Tighten Skin and Reduce Cellulite
- Increase Energy and Quality of Rest
- Reduce Chronic Pain and Accelerate Healing
- Increase Flexibility and Balance
- Remove Toxins and Improve Immunity
- Improve Overall Wellbeing
- Reduce Stiffness

"Over the past 6 weeks I have used Avant's vibration machine to treat a variety of circulatory and inflammatory disorders. Using thermal imaging, I'm able to easily measure the immediate results of vibration therapy and show these results to patients. Vibration therapy using Avant's machine is a highly effective treatment approach."

Theravibe™ Technical Specs

Style of Vibration	Pure vertical, low impact
Program Modes	Multiple auto and manual modes
User Interface	Interactive color LCD
Weight Capacity	Up to 550lb
Amplitude	Up to 1"
Frequency	3Hz to 100Hz
Force	Limited 1g
Dimensions	29" x 38" x 53" (W x L x H)
Plate Dimensions	29" x 26" x 3.5" (W x L x H)
Weight	250lb
Power	110VAC / 220VAC
Maneuverability	Wheels, sliders and height adjusters

Testimonials

Kim Morrow, Irvine, CA

My overall health has always been okay with a weakness associated with my lungs and respiratory ailments. When I started on the Theravibe Machine using Therapeutic Whole Body Vibration 60 days ago with full blown bronchitis (coughing, no energy) I was over the bronchitis within 7 days and my energy and vitality were at an all time high. Within two weeks I noticed a big change in my sleep patterns. I could stay awake for long periods of time and then when I did go to sleep it was deep and refreshing sleep. The best part is that after many years of dieting and exercise I lost inches and dropped a full dress size. I can only imagine what other people are gaining from this life changing machine, it is a true blessing.

Kristy C, California

"Since using the Theravibe Therapeutic Whole Body Vibration machine I have an overall sense of well being, I need less sleep and have more energy. While I have not directly lost weight, my muscles have shown increased definition, and there is a noticeable increase in overall performance, flexibility, and strength. My neck and lower back have strengthened and I seldom have pain in these areas anymore. As a tri-athlete, I look forward to continuing to take advantage of both the short and long term benefits of Therapeutic Whole Body Vibration not only for athletic conditioning, but also to promote a healthy and happy lifestyle."

Rosanne L, California

The Theravibe System, in three weeks, has transformed me - body, soul, and mind. My mental attitude towards my health has done a 360 degree turn. Prior to being introduced to this amazing machine I always had the best intentions of exercising and eating healthy but did not have the drive. With the Theravibe I have experienced an amazing transformation. Some of the physical changes include the ability to sleep through the night without the aid of medication and feeling energized when I wake up. I have lost both weight and inches, and my bowel movements are normal. I no longer suffer with the severe lower back ache from arthritis that has plagued me for the past 15 years and my posture has improved. My double chin is a thing of the past, my facial skin is tighter, my skin is radiant and even my hair feels healthier. My bouts with depression are obsolete and the weight on my shoulders that sometimes paralyzed me no longer has a threshold on me. I continually experience a positive mental attitude. I find myself unafraid to take on the new challenges which have presented themselves in the past 2 weeks. I am now thankful on a daily basis for the blessing I receive. I am amazed that a single machine can do for me what the Theravibe has done.

Becky Bryant, California

I have been using the Theravibe for 18 days now. I started off using it once a day on the Wellness setting and then moved to the Workout session. I can say I am hooked! I wake up each morning looking forward to getting on the machine. Since using the Theravibe my sleep is better than ever and I wake up early and ready to go. I don't feel groggy and I don't want to sleep in as usual. I have more energy, feel more toned and my endurance is higher. Due to major back surgery and a disk replacement to fix my broken spine I cannot use a lot of the equipment at a gym. I believe the Theravibe is helping my back to get stronger and giving me the workout I need. I truly don't want to be without it. It just makes me feel so good.

Ned Madden, San Clemente, CA

Energizes & invigorates me. I also noticed my muscles are more toned. I check my own blood pressure, and was happy to see it has gone down. In addition, my congestion cleared up, and I have not had to use my asthma inhaler like I did before. I love the way it makes me feel all around. I feel great and handle stress much better than I have in the past. I highly recommend the Theravibe to anyone looking to feel and look great!

Theravibe™ is Made in the USA

Distributorship Opportunities Available

Avant Wellness Systems is appointing suitably qualified distributors to move our products. Potential distributors should have channels in place and the infrastructure to handle targeted marketing, sales and customer service. Generous margins, unsurpassed technology, competitive pricing and high growth add up to a great opportunity for our distributors. **Contact us to learn more.**
